#### 1 Introduction

This document is a Systems Administrator's Guide for adding, changing, and deleting information to Documentation Consultants' **SDLC** documentation.

#### 1.1 Purpose

This Guide will help users modify their documentation, which includes information on the following topics:

- Document Properties
- Title Page
- Table of Contents
- Headers and Footers
- Document Format and Style
- Page Numbers

Note: This document is not intended as a training guide for either Microsoft Word or Excel. It will assist in modification of Microsoft 2007/2010/2013 version documents.

#### **1.2** Audience

This document is intended for system administrators, analysts, and technical writers who develop and modify Documentation Consultants' **SDLC** *forms* documentation.

#### **1.3 General Form and Template Information**

Documentation was prepared using standard template. Certain features and functions apply to all documentation where applicable. In the majority of forms, the documents contain the following information:

- Title Page
- Revision History
- Copyright Notice and Confidential Statement
- Table of Contents
- Glossary of Terms
- Appendix Section
- Header and Footer information.
- Text in Arial font using 11 point size.

#### 2 Word 2007/2010/2013 Styles

The vast majority of forms within each package are comprised of Microsoft Word forms and templates.

All of these forms have been developed using custom Word Styles. The list of these styles is shown below to simplify your customization of these forms.

#### 2.1 Accessing Word's Styles

To access the styles, place your cursor in the line you wish to change, click on the Home Tab and then the Styles Dialog Box Launcher (in the lower right hand corner of the Styles group).

#### 2.3 Replacing the Blue Line Text

The blue line text embedded throughout each form provides instructions and suggested text entries for each field on the form. These blue line entries should not appear in your finished document.

To replace a blue line entry, select the text, and click on the Delete button. However, the style will remain as one of the many blue line text entries available in the Styles library (as shown above).

You will want to change the style for that entry to one of the styles corresponding to the type of text entry you wish to replace it with, by clicking on the appropriate style in the Styles Dialog Box, such as:

Body Text No. 1	
Body Text No. 2	
Body Text No. 3	
	Body Text Centered
Table Text	
	Table Text Centered
Table Text Bolded	
Table Text Bulleted	

Then type in the new text.

#### **3 Word 2003 Maintenance Information**

Note: Although no longer supported, this section only applies if you are using Word 2003. If you are using Word 2007/2010/2013, click <u>here</u> to review the instructions to modify Word 2007/2010/2013 forms.

The Document Properties area within the Microsoft software contains general information about the document. Users should consider changing the Summary tab within the Properties page.

#### Modify the Company Logo

To replace the default company logo, click on the logo to highlight the graphic, and then click on the Picture icon. The Insert Picture dialog box will display. Navigate to the location of your company logo and click on the Insert button to insert your logo. Use the handles on the graphic to size the graphic to the desired shape and size.

Note: Since the majority of SDLCforms have multiple sections, you may need to repeat this process in every section in the document.

#### Modify the Project Name

On the right hand side of the header, highlight the Project Name text and replace it with your project name.

#### Modify Version

Below the Project Name, highlight the Version text and enter the version number of the document (generally Version 1.0).

When you are complete with all changes, click on the Close Header and Footer icon to return to the title page.

#### 4.2.2 Modify Title Page Body Information

Scroll over the respective line and overwrite the appropriate information (use appropriate style where applicable):

- Replace "Your Company Name" with your company name.
- Replace "Date" with today's date.

#### 4.2.4 Modifying the Footer Detail

To access the Footer, click on the Insert Menu and then the Footer icon in the Main Menu bar on the top of the page:

- Move your cursor over the statement and type the respective information.
- While the confidentiality statement is highlighted, change the statement information to black by clicking into the statement and when the popup menu appears, click on the "A" icon to change the color.
- Note that the representative illustration above only applies to Section 1 of the footer. You will need to scan the entire document for additional sections, as most of the SDLCforms have multiple sections due to differences in the first page layout and subsequent pages.

To modify the page number in the footer:

- Click on the Page Number icon in the Insert menu.
- A dropdown menu will display. Click on Format Page Numbers. The Page Number Format dialog will display.

Navigate to the location of your company logo and click on the Insert button to insert your logo. Use the handles on the graphic to size the graphic to the desired shape and size.

Note: Since the majority of SDLCforms have multiple sections, you may need to repeat this process in every section in the document by copying the embedded (resized) graphic into the header of each section.

#### Modify the Project Name

On the right hand side of the header, highlight the Project Name text and replace it with the current project name.

#### Modify Version

Below the Project Name, highlight the Version text and enter the version number of the document (generally Version 1.0).

When you are complete with all changes, click on the Close Header and Footer icon to return to the title page.

#### 5.2.2 Modify Title Page Body Information

Scroll over the respective line and overwrite the appropriate information (use appropriate style where applicable):

- Replace "Your Company Name" with your company name.
- Replace "Date" with today's date.

#### 5.2.4 Modifying the Footer Detail

To access the Footer, click on the Insert Menu and then the Footer icon in the Main Menu bar on the top of the page:

#### 5.6 Glossary

Update the Glossary Section table (if applicable) by entering the respective information.

Торіс	Description
Ad-hoc Testing	This type of testing is done without any formal Test Plan or Test Case creation. Ad-hoc testing helps in deciding the scope and duration of the various other testing and it also helps testers in learning the application prior starting with any other testing.
Enhancement	The addition of new functionality and/or the change/removal of existing functionality in order to improve the application.
Functional Testing	In this type of testing, the software is tested for the functional requirements. The tests are written in order to check if the application behaves as expected.
Incident	A problem with the application, test script, tester performance and/or documentation, which prevents verification of a particular requirement or design element.
Regression Testing	The process of re-executing one or more test scripts in order to verify that errors have been properly corrected and that no new errors have been introduced.
